

Capabilities Statement

Tactegra is a management consulting firm providing solutions to our client’s complex business problems through simple and pragmatic action plans. We leverage our expertise in Lean Six Sigma, Change Management, Data Management and Project Management coupled with greater than 75 years of experience as successful Corporate Managers driving and delivering bottom line business results for well-known companies such as Veteran’s Health Administration, Peace Corps, National Institute of Environmental Health Sciences, Eastern District of New York, Bank of America, General Electric, United States Postal Service, Xerox, Johnson Controls and American Standard, to resolve and improve the internal operations of our clients. Through execution translated into real results, every Tactegra client engagement leads to an improved business environment, the development of best practices and replication opportunities while ensuring optimal Return on Investment.

Core Competencies

- 
Process Improvement and Design - Lean Six Sigma based process re-engineering and design. Experts in D.M.A.I.C. & D.M.A.D.V. (also known as DFSS) methodologies. This service includes:
 - ✓ Process Management
 - ✓ Process Documentation and Mapping
 - ✓ Process Risk & Controls
- 
Lean Six Sigma Training & Certification (Yellow, Green, and Black Belts) – We offer ASQ compliant classroom, virtual, or digital self-paced courses. This service include:
 - ✓ Classroom
 - ✓ Virtual Blended
 - ✓ Self-Paced Digital
- 
Continuous Process Improvement Programs - We support all aspects of the program lifecycle from inception to full maturity. Tactegra leverages Lean Six Sigma as its base for all CPI programs.
- 
Data Analytics - Data analytics and visualization techniques using Power BI and Tableau. This analyst and scientist specialize in:
 - ✓ Structured Query Language (SQL)
 - ✓ R-Studio by IBM
 - ✓ Python
- 
Change Management - Enabling key transformation activity leveraging Industry and ACMP protocols. Our simplified 3-step approach follows the path of Plan-Execute-Sustain (PES).
- 
Project Management - Oversight and management of strategic projects leveraging PMBOK. This service also include:
 - ✓ Program Managers (overseeing multiple related projects)
 - ✓ Business Analysts
