

Tactegra is a leading management consultancy dedicated to helping organizations achieve their goals and achieve measurable results. As an SBA 8(a), Service-Disabled Veteran Owned Small Business with over 75 years of combined experience in driving transformational programs and initiatives, our team of experts has made profound positive impacts on our clients. Our comprehensive suite of services offers a tailored experience to our clients based on the needs of their organizations.

## COMPETENCIES

**Assessments:** Tactegra's expert evaluations offer a transformative roadmap, providing a powerful perspective on our clients' operations while identifying untapped potential and unexplored opportunities to achieve new levels of efficiency and productivity through our rigorous assessments of their processes (using our proprietary PMMI methodology), programs, and organizations.

**Process Modernization:** Tactegra empowers our clients to revolutionize their operations, by unlocking new levels of effectiveness, efficiency, productivity, and performance in their processes through:

**Lean Six Sigma:** Tactegra's comprehensive Lean Six Sigma services deliver unparalleled results, combining expert project execution with cutting-edge training and certification programs. *Training & Certification · Coaching & Mentoring · Program Deployment · Project Execution*

**Diversity, Equity, Inclusion, and Accessibility (DEIA) Programs:** Tactegra empowers our clients to cultivate a truly inclusive workplace culture through our comprehensive DEIA solutions and consulting services, promoting respect for diverse perspectives, experiences, and backgrounds.

**Project and Program Management:** Tactegra's expert project and program management maximizes client success, leveraging PMBOK methodology and cutting-edge tools such as Smartsheet for exceptional results with unparalleled efficiency, accuracy, and agility.

**Tactegra Advisors:** Tactegra experts offer industry-leading guidance and strategic consulting services in Process Management, Automation, DEIA Programs, and Continuous Improvement Programs, including Lean Six Sigma.

**Data Analytics:** Tactegra Data Analyst and Scientist specialize in this new dimension of capability. They bring a unique skillset to our clients as they assist them in gaining a full comprehension of their data environments.

**Staff Augmentation Services:** We specialize in connecting you with top-tier professionals across diverse industries and labor categories. Whether you need skilled IT experts, experienced engineers, financial gurus, creative marketing specialists, efficient project managers, or human resources consultants, we have the right talent to meet your unique staffing needs.
