

Tactegra specializes in delivering measurable, sustainable outcomes by enabling federal agencies and organizations to assess, measure, and elevate operational maturity while ensuring alignment with evolving industry standards and best practices. Established in 2008, Tactegra leverages over eight decades of combined leadership experience across federal, corporate, and global engagements. Our success is built on the ability to translate strategic vision into actionable, results-driven solutions by understanding each client's unique challenges and delivering tailored solutions that enhance operational efficiency and drive measurable transformation.

Core Capabilities

Process Modernization & Improvement

We transform organizational workflows by identifying inefficiencies and implementing innovative solutions that drive sustained operational success.

Project & Program Management

We guide complex initiatives from concept to completion through meticulous planning, strategic oversight, and collaboration, ensuring impactful outcomes.

Lean Six Sigma Training

We build organizational capability with tailored Lean Six Sigma training programs, equipping teams to achieve continuous improvement and operational excellence.

Strategic Transformation Services

We deliver high-impact transformation services that align strategy with execution, enhance mission performance, and drive sustainable operational improvement.

Differentiators

Large Scale Solutions

Our successful results for major organizations highlights our ability to provide impactful, differentiated value on a large scale.

Comprehensive Offerings

Strategic partnerships with industry experts enable us to scale solutions for the most complex challenges.

Proprietary Tools

Our tools such as the Process Maturity Model and Process Health Score distinguish our ability to deliver lasting solutions.

Enterprise-Grade Execution

Tactegra's former corporate executives apply private-sector discipline to government consulting, ensuring strategies translate into measurable outcomes.

We offer online, self-paced learning
